Cancellation Policy/No Show Policy

For Doctor Appointments and Surgery

1. Cancellation/No show Policy for Doctor Appointments

We understand that there are times when you must miss an appointment due to emergencies or obligations for work or family. However, when you do not call to cancel an appointment, you may be preventing another patient from getting much needed treatment. Conversely, the situation may arise where another patient fails to cancel and we are unable to schedule you for a visit, due to a seemingly "full schedule"

If an appointment is not cancelled at least 24 hours in advance you will be charged a Thirty five dollar (\$35.00) fee; this will not be covered by your insurance company.

2. Account Balances

We will require that patients with self-pay balances due, pay their account balances to zero(0) prior to receiving further services by our practice.

Patients who have questions about their bill or who would like to discuss a payment plan option may call and ask to speak with the office manager with whom they can review their account and concerns.

Patient with balances over one hundred dollars (\$100) must make payment arrangements prior to future appointments being made.
